Portfolio: <https://rekroetch.github.io/react-portfolio/>

Technical Skills

Languages: JavaScript, CSS, HTML, SQL, JSX

Applications: GitHub, MySQL, Heroku, MongoDB, Robo 3T, Postman, MongoDB Atlas

Tools/Libraries: Express, Node, React, React-Native, Axios, Jest, Redux, Jenkins, Docker, Handlebars, jQuery, Bootstrap, Sequelize, Passport, Mongoose, JSON Web Token, Bcrypt, PostgreSQL, Foundation, JawsDB, IndexedDB

Personal Skills

Leadership, problem solving, time management, organization, attention to detail

Experience

Web Engineer - Intern

May 2022 - August 2022
Seattle, WA

Qualtrics

- Own a new feature for production using React with Redux, by collaborating with designers and software engineers.
- Remotely communicate with my mentor in Serbia, while overcoming a 9 hour time difference.
- Perform demos for our international team during sprint reviews.
- Write unit tests using Jest and React Testing library.

Full Stack Developer

July 2021 - July 2022
Remote

GymRat LLC

- Collaborate with a team of eight people to build the MVP of a pre-seed startup app, now available on the iOS app store.
- Write the routes for uploading and managing images on the app using the Multer library on the back-end.
- Establish API and user authentication with Passport.js and JWT.

Coding Instructor

October 2021 - January 2022
Campbell, CA

Code With Us

- Lead small groups of students through 1 hour lessons on JavaScript, Python, robotics, Minecraft Modding, or Scratch.
- Emphasize the importance of understanding data structures, conditional statements, loops, and data types.
- Communicate with parents about student progress each week.

Projects

Escape Room:

About: A virtual escape room game where users solve riddles, complete puzzles, and find clues to "escape" and win.

Contributions:

- App idea and user flow.
- Back-end (database, models, API routes, server connection, user authentication, password encryption).
- React front-end (state management of users and puzzles, Axios to fetch data from the back-end, app navigation: BrowserRouter routes including protected routes).

Technologies: JavaScript, React, React-drag-drop-container, Node, Express, MongoDB, Mongoose, Passport, JSON Web Token, Bcrypt, Axios, CSS, Bootstrap, Font Awesome, and deployed on Heroku with MongoDB Atlas.
