Projects

Escape Room: A virtual escape room game where users must solve riddles, complete puzzles, and find clues to "escape" and win. Created with JavaScript, React, React-drag-drop-container, Node, Express, MongoDB, Mongoose, Passport, JSON Web Token, Bcrypt, CSS, Bootstrap, Font Awesome, and deployed on Heroku with MongoDB Atlas.
Deployed Link: https://react-escape-room.herokuapp.com/ | **GitHub**: https://github.com/rekroetch/escape-room

Game Keeper: An app to Explore, Search, Filter and Save your favorite board games. Made with JavaScript, CSS, Handlebars, Node, Express, Passport, MySQL, Sequelize, Board Game Atlas API, JWT.IO, GSAP, Bootstrap, Font Awesome, and deployed on Heroku with JawsDB.
Deployed Link: https://my-game-keeper.herokuapp.com/ | **GitHub**: https://github.com/rekroetch/game-keeper

Plates: An app that allows the user to search for restaurants when they want to try some place new. The app uses the APIs of Zomato and OpenStreetMap, along with Leaflet and MapQuest to provide information about the restaurants as well as directions to the place of their choice. App utilizes HTML, CSS, JavaScript, jQuery, and Foundation.
Deployed Link: https://rekroetch.github.io/plates/ | **GitHub**: https://github.com/rekroetch/plates
